UNAI LABS

Campus Ambassador Playbook

How the programme works, what you earn, how you get paid, a 30-day plan and messages you can copy.

Version 1, November 2026. Prices and rules on unai-labs.com/campus-ambassadors are the latest; if this PDF and the page ever differ, the page is right.

unai-labs.com

Share UnAI Labs with your campus. Your friends get 10% off. You earn a share of every sale made with your personal code.

UnAI Labs makes short, science-backed online courses in plain language: AI literacy, deep focus, neuroplasticity and brain health, plus the eBook *How to Be a Hippie*. Our belief: your brain is more powerful than any AI, if you train it.

The honest part first: this is commission only. There is no salary. If nobody buys with your code, you earn nothing. There is no fee to join and you never have to buy anything.

Need help? Email manish.singh@unai-labs.com with your question (and your code, if you have one). We reply within 2 working days.

Who can join

- College or university students in India, aged 18 or older, any year, any stream.
- You need your official college email (for example name@college.ac.in). Personal emails like Gmail are not accepted, because the college email is how we confirm you are a student.
- Community builders without a college email (club organisers, tutors, group admins) cannot apply online yet. Write to us and we will tell you when that opens.

How it works

1. **Create a free UnAI Labs account** (or log in).
2. **Apply on this page** with your college name and college email.
3. **Open the confirmation link** we send to your college email (valid for 48 hours), while logged in.
4. **Get your code and dashboard.** College emails ending in .ac.in, .edu.in or .edu are approved straight away (up to 5 ambassadors per college). Others are reviewed by hand within 3 working days.

What your friends get

10% off any of these, with your code or your share link:

- AI Literacy for Everyone: Rs 2,999 (launch price Rs 1,999 until 30 Nov 2026)
- Neuroplasticity in Practice: Rs 2,999 (launch price Rs 1,999 until 30 Nov 2026)
- Deep Focus: Reclaiming Attention: Rs 2,999 (launch price Rs 1,999 until 30 Nov 2026)
- Brain Health 101: Rs 2,999 (launch price Rs 1,999 until 30 Nov 2026)
- How to Be a Hippie (eBook): Rs 399

Each buyer can use your code once. Team and campus licences are not included.

What you earn

You earn a percentage of what the buyer actually pays (after their 10% discount). The percentage depends on how many sales you have made in total:

One sale	1 to 24 sales 10%	25 to 99 sales 15%	100 to 249 sales 20%	250 or more sales 25%
Course at launch price Rs 1,999 (until 30 Nov 2026) buyer pays Rs 1,799	Rs 180	Rs 270	Rs 360	Rs 450
Course at Rs 2,999 (from 1 Dec 2026) buyer pays Rs 2,699	Rs 270	Rs 405	Rs 540	Rs 675
eBook at Rs 399 buyer pays Rs 359	Rs 36	Rs 54	Rs 72	Rs 90

When you reach a new level, all your earlier sales move up to the new percentage too. Example: at your 25th sale, your first 24 sales also move from 10% to 15%.

Examples at the Rs 2,999 course price:

- **5 course sales**: about Rs 1,350 (at 10%)
- **10 course sales**: about Rs 2,700 (at 10%)
- **25 course sales**: about Rs 10,125 (all 25 move to 15%)
- **50 course sales**: about Rs 20,250 (at 15%)
- **100 course sales**: about Rs 54,000 (all 100 move to 20%)

These are examples of how the maths works, not a promise of what you will earn. Amounts are rounded to the nearest rupee.

When a sale counts

- **Your code must be on the order when it is paid.** Your share link adds it automatically. If a buyer removes it or uses a different code, the sale cannot be added later.
- **7-day wait:** a sale is confirmed 7 days after payment, because buyers can ask for a refund in that time. A refunded sale does not count.
- **Your own purchases never count**, and your code will not work for you.

How you get paid

- Add your UPI ID on your dashboard. The name on your UPI account should match your name on UnAI Labs.
- We pay by UPI once a month, in the first week of the month, when your confirmed earnings are Rs 500 or more. Smaller amounts carry over to the next month.
- Your dashboard shows every number: sales, your current percentage, pending (inside the 7 days), confirmed, paid so far and balance due.
- Questions about a payment: write to manish.singh@unai-labs.com with your code.

Tax, in plain words

- What you earn is your income. Declaring it is your responsibility.
- We do not deduct tax from your payouts today. If the law ever requires us to, we will tell you before any payout it affects.
- Ask us any time for a summary of what you were paid in a financial year.

The rules

- Be honest. Share what the courses actually are. No promises of results, jobs or marks.
- No spam: no mass messages, no posting the same message again and again, no adding people to groups without asking.
- No fake reviews, no fake accounts, no paid ads in the UnAI Labs name, no pretending to be UnAI Labs staff.
- Breaking a rule means your code is switched off. Sales made honestly before that are still paid.

Your data

- We keep only what the programme needs: your account, college name and college email, city, course and year, and your UPI ID for payouts.
- Only UnAI Labs can see it. It is never shown to other ambassadors or buyers, and never sold.
- You never see your buyers' names or details either: your dashboard shows numbers only.
- Want to leave or have your data deleted? Write to manish.singh@unai-labs.com. Any confirmed balance is paid in the next payout.

Your first 30 days

Day 1	Add your UPI ID. Read this Playbook once. Look through the course pages so you can describe them honestly.
Week 1	Post one Instagram story with your share link. Send one message in each class or club group you are already in. Tell 5 friends in person why you joined.
Week 2	Ask your wellness centre, placement cell or tech club if they would like a free 45-minute online session, "Your Brain vs AI". Introduce them to us by email; we do the session.
Weeks 3 and 4	Answer questions from people who replied. Share one idea from a lesson you found useful. Do not repeat your group message.
Good first month	About 5 sales. Some ambassadors will do more, some less. That is fine.

Messages you can copy

Change them into your own words. Messages that sound like you work better than copied ones.

Class or club WhatsApp group (send once)

> Hi all, I've joined the UnAI Labs campus programme. They make short online courses on using AI without losing your own focus and thinking, and on how the brain learns. Plain language, science-backed. My link gives you 10% off: [your share link]. Happy to answer questions, and no pressure at all.

Instagram story

> Exams, notifications, AI doing half the work. I've been learning how attention and memory actually work. If you want to try it, 10% off with my link: [your share link]

One-to-one message

> Hey, you mentioned you struggle to focus while studying. There's a short course called Deep Focus that I think is actually useful, and I can get you 10% off: [your share link]. Totally fine if it's not for you.

Email to a club, wellness centre or placement cell

> Subject: A free 45-minute session for students: "Your Brain vs AI"
>
> Dear [name],
>
> I'm a [year/course] student and a campus ambassador for UnAI Labs, which teaches short, science-backed courses on AI literacy, focus and brain health. They offer a free 45-minute online session, "Your Brain vs AI", on keeping your own attention and judgement strong while using AI tools. Would [club/centre] be interested? I can connect you with the founder at manish.singh@unai-labs.com.
>
> Thank you,
> [your name]

Do and don't

Do	Share once per group. Say what the course is. Tell people it is fine to say no. Answer questions honestly, or ask us.
Don't	Promise marks, jobs or results. Post fake reviews. Spam groups or add people without asking. Say you work for UnAI Labs.

Start checklist

☐ Account created and college email confirmed
☐ Code and share link on my dashboard
☐ UPI ID added
☐ Looked through the course pages
☐ First story or group message sent
☐ Wellness centre or club contacted

Questions

Do I have to buy a course to join? No. Joining is free and you never have to buy anything.

Is there a target? No. Share as much or as little as you like. A good first month is about 5 sales.

My friend bought but it is not on my dashboard. Check that your code was on their order. If it was, the sale shows straight away as pending. Sales without the code cannot be added later.

Can I use my code myself? No. Codes are for friends and classmates.

I am under 18. Sorry, you need to be 18 or older to join.

Where do I start? Start with the 30-day plan and the messages in this Playbook.

Anything else? Email manish.singh@unai-labs.com. We reply within 2 working days.
